Thank you for your interest in our “Try Before You Buy” Program.

Saddles N Pads is a small licensed family owned business. Our focus is on helping horses and horse people with their choice of equipment for better riding pleasure and for competition events.

We have had great success with Try Before You Buy for many years. We have, however, have had less than positive situations with some people who have tried to take advantage of our good will. We must present this contract in order to continue to be able to offer this great program to you and to your horses. We are committed to helping people know what they are purchasing and why in order to help keep their costs down, get into the right equipment and have some fun! We have long term customer relationships and would be very happy to work with you also.

We purchase various saddles, pads, stirrups, reins, tack and magnet products and “loan” them out as an opportunity for customers to “Try before you Buy” them. **We own the try out equipment and it is the property of Saddles N Pads.** We will work with you to determine what may work the best for you given your particular situation. We can then agree what type of equipment might be best for you to try.

Terms and Conditions of the Try Before You Buy Program

- You can keep the equipment for 1 week. Example – if you get it on a Tuesday – you would ship it back the following Wednesday. We want you to ride it as much as time allows – and make a run in it if you can. That’s the whole idea! ☺ Show your trainer, vet, chiropractor etc. Give yourself an adequate chance to really know if it is for you.
- You provide a valid credit card number to Saddles N Pads before we ship to you. We will call in the dollar amount of the equipment to be shipped to you plus the cost of the shipment itself – and get an authorization number. This number assures Saddles N Pads that the amount of money for the cost of the equipment is available through that credit card.
Example: \$1,000 Saddle + \$65 Shipping – We would call in \$1,065.00
- We will actually draw the funds for the shipment itself - \$65.00. The balance of the \$1,000 will remain as credit card non available funds.
- We will hold the amount of the products being sent to you as a security deposit until the products are either returned or purchased

- We will ship the equipment to you by the most economical means. Inside the box will be a receipt for the total cost of the box contents and the shipping cost. The receipt has all of our contact information on it also
- If you decide to ship the equipment back – No Problem! The cost of the shipment will be paid by you. You are required to insure the return shipment for the total cost of the contents – shown on the receipt. If you do not insure it and it is either lost or damaged – you are responsible for the total cost of the contents. Once we get it back, inspect the equipment and find no damages, we will release the hold on your credit card for the amount of the contents
- Any undue damages to the equipment or removal of any parts and pieces – back cinch, stirrups, hobble straps etc – will be charged against your credit card for the cost of replacement
- If you do decide to keep the equipment – No Problem! Glad for you! Just let us know and we will draw the reserve on your credit card, send you a paid receipt and wish you the best! It's pretty easy!
- You must be 18 years or older to sign the contract. A parent or guardian can sign for those under 18.

_____Agrees to these terms and conditions. We will accept an e-mail commitment and will keep a copy with the contract.
